Education

19

42 Cursus, Computer Science

2020 - 2023

Businesses are changing and are not finding the right profiles. 19 aims to provide suitable profiles for these businesses. The platform is part of the 42 network, currently composed of 11 cities around the world, and provides access to project content. The whole path is based on peer-to-peer: a participative operation that allows developers to unleash their creativity through collaboration on projects

École Supérieure d'Informatique (ESI)

Computer Software Engineering
